The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/581,546	<b>Applicant(s)</b> FLESCHER ET AL.	
	<b>Examiner</b> Sikarl A. Witherspoon	<b>Art Unit</b> 1621	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 46, 50, 53, and 54 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 46, the examiner is unclear how applicants differentiate between mammalian cancer and human cancer, as humans are mammals.

In claims 50, 53, and 54, the examiner is unclear what type of cancer applicants mean when they recite, cancer of the peripheral and central nervous system.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 32, 34, 37, and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Kiyota et al (XP-002328126).

The compound, 2-[(2z)-4-fluoro-2-pentenyl]-3-oxo-cyclopentaneacetic acid methyl ester, disclosed on page 2, anticipates the instant claims.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 32-34, 37-39, and 42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakaguchi et al (XP-002328128).

The compounds disclosed on page 2 and 3 of the reference render the instant claims obvious. The compounds disclosed on page 2 are positional isomers of the instant claims; the halogen atoms corresponding to substituent A of the instant compounds, are in a different position with respect to carbon #7, as per the instant designation of carbon atoms. However, the compound found in Nakaguchi et al renders the instant claims obvious since a person having ordinary skill in the art would have reasonably expected the compound to retain their activity as a hair growth stimulant regardless of the position of the halogen.

Claims 35, 36, 40, 41, 43-45, 47-49, 51, 52, and 55 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
